SUMMARY

Second-year student of a double degree in Computer Engineering and Mathematics (University of Granada, 9.1/10 GPA, 7 distinctions) with the Google Cloud Data Analytics Certificate. I write SQL in BigQuery, model metrics in LookML and build Looker dashboards. Looking for a part-time junior Data Analyst role (afternoons and weekends), remote or hybrid, available immediately.

TECHNICAL SKILLS

- **SQL (GoogleSQL):** JOINs, CTEs, window functions (NTILE), CASE, aggregations, CTAS, LOAD DATA, stored procedures, geography functions, nested data (STRUCT).
- **Google Cloud (GCP):** BigQuery (partitioning and clustering), Cloud Storage, Connected Sheets. Fundamentals of Knowledge Catalog (Dataplex), BigQuery sharing (Analytics Hub), Managed Service for Apache Spark (Dataproc) and Agent Platform (Vertex AI).
- **BI and visualisation:** Looker Enterprise, LookML, Data Studio (Looker Studio), dashboards and KPIs, wireframes, data storytelling.
- **Data:** ETL/ELT, data modelling, data lakehouse, data quality (profiling, cleaning, deduplication), data governance and PII.
- **Programming and other:** C++ (STL, templates, dynamic memory), basic Python (pandas, NumPy), Git and GitHub, Google Sheets and Forms.

DATA PROJECTS

TheLook Fintech: loan-portfolio health · Certificate capstone · BigQuery, SQL, Looker, LookML · 2026

- Processed 270,299 loans in BigQuery (LOAD DATA from Cloud Storage, JOINs, DISTINCT on nested data, CTAS) and shared the results with Treasury through Connected Sheets.
- Built a self-service Looker dashboard that turns the outstanding balance ($3.08B) red when it exceeds the $3B limit, with cross-filtering and per-tile refresh schedules.
- Wrote an executive summary with three recommendations: slow new lending, monitor concentration in 4 states and review risk by loan purpose (80% debt and credit cards).

RFM customer segmentation · TheLook eCommerce · BigQuery, SQL · 2026

- Segmented 28,025 customers with CTEs, NTILE and CASE: the High Value segment (29%) drives 52% of revenue. Fixed three bugs in the brief (item-level counts, inverted recency, CASE without ELSE).

Other hands-on certificate projects · BigQuery, Looker · 2026

- Partitioned tables: cut data scanned per query from ~489 MB to ~10 MB (−98%) by filtering on the partition column.
- SQL pipeline with a stored procedure and ST_DISTANCE; Looker Enterprise sales dashboard with LookML measures (total_revenue, revenue_per_user).

EXPERIENCE

Head lifeguard · Fuentes de León Town Council (Badajoz, Spain) · summers 2024 and 2026

- In 2026 I organised a team of new lifeguards and built the sign-ups for the municipal children's swimming course with Google Forms and Sheets: 24 registrations and age groups assigned with formulas.
- Surveillance, prevention and incident handling. Lifeguard and first-aid certificates (Global Encesap, 2024).

Maths tutoring · Informal · 2024–present

- I help 3–4 friends and acquaintances in my town: explaining concepts clearly and adapting the pace to each person.

AJM La Sotarraña · Local cultural association · member and organiser · 2024–present

- Scavenger hunts and cultural events with wide participation; sign-up forms and scoring sheets in Google Sheets.

EDUCATION

BSc Computer Engineering and Mathematics (double degree) · University of Granada · 2025–2030 (expected)

- GPA 9.1/10 · 7 distinctions (Matrícula de Honor).

Google Cloud Data Analytics Certificate · Google Cloud (Google Skills) · October 2026

- 5 courses and a capstone (BigQuery, SQL, Looker, LookML, ETL/ELT, data governance). Credential on Credly.

Spanish Baccalaureate in Science and Technology · IES Ildefonso Serrano · 2023–2025

- Graduated with Honours (Matrícula de Honor), 10/10 average. 4th place in the regional final of the Extremadura Philosophy Olympiad; Mathematical Kangaroo: ranked 60th–70th in Spain in my category.

LANGUAGES AND VOLUNTEERING

Spanish: native · **English:** B2 (Trinity ISE II, 2023) · **Volunteering (2023–2024):** companionship for elderly people (Alcuéscar) and a soup kitchen (Badajoz).
